

## **Genetic Beta Cell Research Bank**

### **Diagnostic Information Sheet or Adults (V1 21/11/2022)**

**Information for patients providing a blood sample for genetic testing at the Exeter  
Genomics Laboratory, Royal Devon University Healthcare NHS Foundation Trust**

#### **How can I get involved in research into my condition?**

If you provide your contact details, the genetic research team at the Royal Devon University Healthcare NHS Foundation Trust Hospital can let you know about studies looking into the causes and treatments of your condition.

#### **How do I find out more?**

For more information about genetic diabetes you can look at [www.diabetesgenes.org](http://www.diabetesgenes.org) or scan the QR code below.
